NOW AVAILABLE: RR8R

Ride Enhancement Kit #REK-281

**Designed exclusively for Monaco Diplomat and
Holiday Rambler Endeavor 2002-2008**

- Over six months and thousands of development miles result in superior ride quality, drivability and comfort for your Roadmaster™ chassis RR8R.
- Kit contains new proprietary “Custom Tuned” Bilstein™ shock absorbers and a complete specially designed anti-sway bar package, Reflex steering stabilizer, and all necessary mounting hardware.
- Eliminate the porpoising, body roll, rough ride when driving over changes in pavement. Greatly reduces wandering, side wind and truck wash effects, substantially reduces driver fatigue. Experience the difference!
- Available exclusively through Source Engineering Inc.™ or any of our authorized dealers.
- Source engineering, prides itself in creating the ultimate in performance RV suspension kits at competitive prices.
- All Source Engineering suspension & ride enhancement kits are built to the highest possible standards. Starting with the best materials and including processes such as, shot peening, to strengthen welds and provide a compressive stress layer increasing resistance to cracking, cadmium or powder coating for the very best in corrosion resistance. This technology is widely used in military and aviation applications.
- All Source Engineering suspension kits, and ride enhancement kits offer a limited lifetime structural warranty to the original purchaser.
- This is the latest in the line of suspension kits, designed for your Roadmaster™ chassis
- Contact Source Engineering today for information.
