1. Use the company logo at the top left?
2. Not crazy about the Blue Pic at the top. Maybe this would be a good place for the black stripped background?
3. Put the PO Box, City and zip on the same line (PB Box 72485 Springfield, OR 97477).
4. Use a "classic font" - try a combination of Serif with Open Sans or Lato.
5. Change "Our products" to "A few of our products".
6. Change the 3 product images to: "Trailing arm replacement kit", "Comfort air ride Valves", and "4 bag ride enhancement kit". With the correct info under.
7. Put the Source Engineering Logo somewhere in the "Distributor for source engineering parts" area.
8. The background behind "Distributor" should be that diamond plate background (12-twelve-Diamondplate).
9. "Giving you that dream" should be just under engineering parts, inside the same background! Use a cursive font for this!
10. Instead of "have a question" change it to "For a price quote or question please contact us". Underneath that put the phone number and E-mail. After that leave the form there.
